Dear Mr. Mass:

The State Controller's Office analyzed the financial documentation supporting the California Lottery's (Lottery) transfer of funds to public education for the quarter ended June 30, 2011.

Our review disclosed that the Lottery's accounting records supported the requested transfer of \$272,000,000, and that the Lottery complied with the annual statutory percentages for prizes, education, and administration.

If you have any questions, please call Andrew Finlayson, Chief, State Agency Audits Bureau, at (916) 324-6310.

Report of Analysis

Summary

In a letter dated August 26, 2011, the California Lottery (Lottery) requested that the State Controller's Office (SCO) transfer \$272,000,000 to the Lottery Education Fund for disbursement to public education. Our review disclosed that the Lottery's accounting records supported this amount and that the Lottery complied with the annual statutory percentages for prizes, education, and administration. Our analytical review did not disclose any unexplained changes in accounts in a comparison with prior periods. Accordingly, on September 30, 2011, \$271,999,998 was transferred to the Lottery Education Fund.

The difference of \$2.00 is due to rounding in the current quarter.

Introduction

This report presents the results of our analysis of the Lottery's quarterly request that the SCO transfer funds to public education. This analysis is part of our responsibility under the California State Lottery Act (Lottery Act). We performed this analysis to determine if the transfer of funds to public education was supported by amounts recorded in the Lottery's accounting records and to determine whether the Lottery complied with the annual Lottery Education Fund allocation requirements contained in the Lottery Act.

Background

In 1984, California voters passed an initiative, which, by amending the State Constitution, authorized a state-operated lottery. The initiative created the Lottery Act, which requires the quarterly transfer of net revenues to public education, and established the allocation percentages for lottery funds. The Lottery Act also requires the SCO to conduct quarterly and annual post-audits of all accounts and transactions of the California Lottery Commission and other special post-audits as the State Controller deems necessary.

Each quarter, the Lottery requests that the SCO transfer net revenues to public education (see Attachment). The Lottery request usually occurs eight to ten weeks after the close of the quarter.

The Lottery Act was amended by Assembly Bill 142 on April 8, 2010. The bill was an urgency statute that went into effect immediately. Assembly Bill 142 requires revenues from the Lottery to be allocated to maximize the amount of funding allocated to public education. The bill requires that not less than 87% of the total annual revenues from Lottery ticket sales be returned to the public, and not more than 13% be allocated for Lottery expenses. The bill specifies that, of the 87%, not less than 50% of the total annual Lottery revenues, in an amount to be determined by the Lottery Commission, be returned to the public in the form of prizes. In addition, the bill requires the Lottery Commission to establish the percentage to be allocated to the benefit of public education at a level that maximizes the total net revenues allocated to the benefit of public education.

Objectives, Scope, and Methodology

We perform this analysis of the quarterly transfer of funds to public education in order to determine whether:

- Transfer amounts are supported by the Lottery's accounting records; and
- The Lottery is in compliance with the annual allocation requirements specified in the Lottery Act.

We traced the transfer amount to Lottery financial statements and accounting records, and applied analytical review procedures to the lottery fund accounts by comparing them with those from the prior quarter and the prior year. To monitor progress in meeting the annual statutory requirements, we reviewed the actual costs for prizes and administration, as well as the quarterly fund transfer to public education.

Results

After reviewing the Lottery's unaudited financial statements and supporting records for the quarter ended June 30, 2011, we determined that the Lottery's request to transfer \$272,000,000 to the Lottery Education Fund is supported by formal accounting records.

According to the Lottery's unaudited financial statements, the total amount available for transfer to education was \$1,128,551,245 for the year ended June 30, 2011. Of this amount, \$253,543,215 was transferred to the Lottery Education Fund on December 30, 2010 (including \$528,409 adjustment from prior year); \$279,678,987 was transferred on March 30, 2011; and \$318,329,813 was transferred on June 28, 2011. With a net of 4,999,206 withheld pending audit, a balance of 272,000,024 was left. Of this amount, \$271,999,998 was transferred to the Lottery Education Fund on September 30, 2010. The difference of \$25 is due to the Lottery educational apportionment process and rounding. The balance of \$25 is carried over to next fiscal year.

The Lottery returned 87.41% of the total revenues from the sales of tickets to the public for the quarter ended June 30, 2011. Of the 87.41%, 55.39% was returned to the public in the form of prizes, and 32.02% was transferred to public education. The Lottery Act requires the Lottery to return no less than 87% of the total annual revenues from the sales of Lottery tickets or shares to the public in the form of prizes and net revenues to benefit public education. The Lottery Commission determines the percentage of total annual revenues to be returned to the public in form of prizes and be transferred to public education. However, the percentage of total annual revenues for prizes shall not be less than 50%. All other income and unclaimed prizes were transferred to public education.

The Lottery complied with the statutory requirement that administrative expenses do not exceed 13% of the total revenues from the sales of tickets. For the fiscal year 2010-11, the Lottery administrative expenses are 12.59% of the annual revenues. To the extent that expenses are less than 13% of the total annual revenues, the Lottery Act requires any surplus funds to be allocated to benefit public education.
